EXPERIENCE

Mombo Labs, Inc.
2013 - Present

Lead iOS Engineer

Lead the developer of the Steller iOS app. Transformed a limited prototype into an app that is now used by over 200K people. Steller has been featured in Apple's "Best New Apps", "Editors' Choice", and "Best of 2014".

Cheezburger, Inc.
2012 - 2013

Lead Native App Engineer

Half of the two-person team that built Cheezburger's iOS apps - the Cheezburger Builder for building memes, and the Cheezburger app for viewing them. The apps grew to the #1 most used humor app according to comScore. My team also built Cheezburger's Windows 8 app in less than 2 months, making it available for the launch of Windows 8. Upon launch, the app became the most used app within the entertainment category of the Windows Store.

Mixed In Key, LLC
2012

iOS and Windows Engineer

Developed the Windows version of Mashup which was nominated for the "Best DJ Tool of the Year" by DJ Magazine. Developed iMashup, an iOS app often found in the top 20 paid music apps.

TechSmith Corp.
2010 - 2011

Web and Desktop Engineer

Worked on all facets of TechSmith Relay, a screen-capture solution comprising of a video encoding server, web frontend, and native Mac & PC clients. Lead the development of a web-based caption editor which was completed in less than 3 months.
