EXPERIENCE

Cheezburger, Inc.
July 2012 - Current

Software Engineer - Web / Mobile
Half of the two-person team that built Cheezburger's iOS apps - the Cheezburger Builder for building memes, and the Cheezburger app for viewing them. The viewer app has 120K users daily, and is the #1 most used mobile app in the humor entertainment category according to comScore. My team also built Cheezburger's Windows 8 app in less than 2 months, making it available for the launch of Windows 8.

Mixed In Key, LLC
Jan - July 2012

Software Engineer - Web / Desktop / Mobile
Lead developer for the Windows version of Mashup, which was nominated as the "Best DJ Tool of the Year" by the 2012 DJ Tech Awards. Part of the 3-person team that developed iMashup, an iOS equivalent of Mashup desktop. iMashup reached the #64 spot on the App Store's list of top paid iPad apps.

TechSmith, Corp.
Jan 2010 - Dec 2011

Software Engineer - Web / Desktop
Worked on all facets of Camtasia Relay, a multi-tier screen-capture solution, which consists of an encoder backend, a web frontend, and native Mac & PC clients. Lead developer of a web-based caption editor which was completed in less than 3 months.
